

## **DCU Cricket COVID Statement**

At DCU Cricket, the safety and well being of our members is our number one priority. To guarantee this, numerous decisions have been made by the committee and various measures have been put in place.

Antibacterial hand sanitizers will be present at all training and matches. All members must make use of them before and after the activities.

All Club equipment (eg. Bats, Pads) will be cleaned in a suitable manner regularly to prevent the spreading of the virus. This will include the place at which these equipment are being stored.

A Registration system has been set up by the club with the main purpose of keeping a record of attendance for contact tracing. Students who attend training and matches will need to check in with a committee member before continuing on with the activity. All details kept on file will only be used in the unlikely event of a contamination

Only a certain number of students (yet to be decided) will be allowed to train/play at any given time (ex. Outdoor). In the event that we have more than the allowed number, special arrangements will be made so that those students can still participate at the same time

Outdoor activities will still continue as normal however students will be split into pods if there's more than the allowed numbers present at training or matches.

Face masks are mandatory when members are idle or are not participating at any club event. This includes matches and training.

A minimum of 2 meters of social distancing must be followed at all times. Any member who fails to adhere to the rule will be doing so at their own risk and will have to face any consequences that may arise as a result.
